How to Use Our Payment System

Our payment system uses a reusable and reloadable laundry card to start all washers and dryers. No coins are needed.

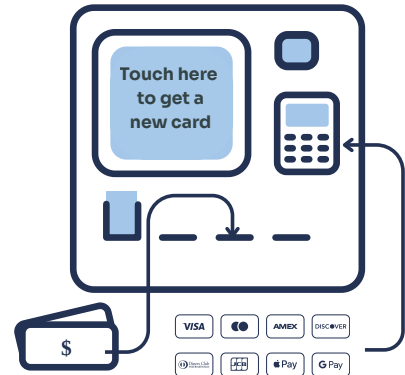

STEP 1

Get a Laundry Card

(Skip this step if you already have a card)

1. Locate the Value Add Center kiosk
2. Touch **"Touch here to get New Card"**
3. Insert bills or select credit/debit to add value

Note: The kiosk does not provide change. The payment amount will be added directly to your card balance.

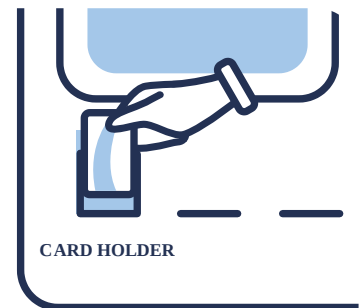

STEP 2

Add Money to Laundry Card

(or reload funds)

1. Place your laundry card into the card holder on the kiosk
2. Make your payment with cash or a credit/debit card

STEP 3

Start a Washer/Dryer

1. Place your laundry card onto the machine's card reader
2. You may be required to press the **"Start"** button on the machine

Important:

Hold onto your laundry card to reload and reuse it at this laundromat. If you lose your card, you will need to get a new one.
